BSc Computer Science Student | Student ID: GH1049732

Professional Summary

First-year Computer Science student at GISMA University of Applied Sciences with hands-on experience building Python applications and relational databases. Adept at applying data structures, algorithms, and OOP principles to design clean, maintainable solutions. Eager to contribute to real-world software projects while growing across full-stack development, AI, and cybersecurity.

Education

GISMA University of Applied Sciences

Bachelor of Science in Computer Science

Germany

Expected Graduation: 2028

Relevant Coursework: Python Programming · Data Structures & Algorithms · Databases & Big Data · Mathematical Foundations · Academic Research Writing · Project Management

Academic Projects

Student Record Management System — Python

- Engineered a modular Python application to store, update, and retrieve student records using structured file handling.
- Implemented robust input validation and error-handling routines, reducing invalid-entry errors to zero during testing.
- Applied functional decomposition and modular design patterns to improve code readability and maintainability.

Relational Database Design Project — SQL

- Designed and normalised a multi-table relational schema (up to 3NF), eliminating data redundancy across all entities.
- Authored complex SQL queries (SELECT, INSERT, UPDATE, DELETE, JOIN) to manipulate and retrieve structured data.
- Documented the entity-relationship (ER) model and data dictionary to support maintainability and peer review.

Technical Skills

Languages : Python, SQL

CS Fundamentals : Data Structures, Algorithms, Big-O Analysis, Object-Oriented Programming, Database Fundamentals

Tools & Platforms : Visual Studio Code, Git (Basic), Microsoft Office Suite

Concepts : Relational Database Design, File I/O, Input Validation, Modular Programming, Normalisation (3NF)

Languages

English — Fluent | **Malayalam** — Native | **Hindi** — Conversational

Soft Skills

Problem Solving · Analytical Thinking · Teamwork & Collaboration · Written & Verbal Communication · Time Management · Adaptability

Interests

Software Development · Artificial Intelligence & Machine Learning · Cybersecurity · Data Science
